

FAN MADE RFT HOLSTERS, BELTS AND BELT BOXES

This "Ad" is for fan made leather items to complete you Rebel Fleet Trooper. Please remember that all transactions are between you and the seller. This Yahoo Group does not make any money nor offer arbitration for you with regard to these items. "Anrev" is a member of the Rebel Legion and also IG3319 at the 501st. His prices and e-mail address are at the end of this ad. You can probably ask him to leave your leather un-dyed if you wish to do so yourself. The usual color is one call "Saddle Tan".

Schph Gochi

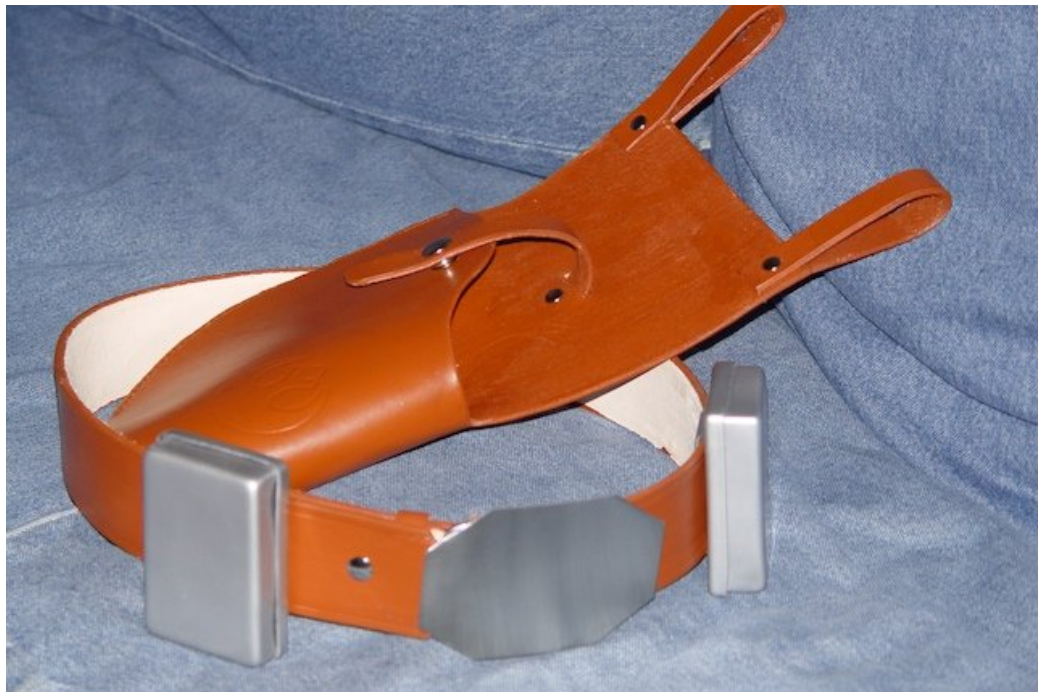

Here is the completed belt. I had a very hard time getting the color right. Its harder to stain the leather brown than I thought. I tried many times to get the stain right. In the end I used paint. It gives you a good even finish and is consistent every time. And no the paint does not come off easily. Its water based latex and soaks into the leather.

I am looking into airbrushing the dye on. But at this point I dont even have an airbrush.

It can be ordered with or without the logo tooled in

Here is the belt with Mon-Cal/Jawaman belt boxes.

And as you can see here, a Master Replicas RFT blaster fits too

The price on the belts are \$48 + \$8 shipping.

Belt boxes are \$20 for the pair installed. PM me for overseas shipping. But generally it costs \$30 for shipping with insurance. Or \$20 without.

The price on the holster is \$55 + 10 shipping. Rebel logo tooled in is an additional \$5. These take about 6 weeks for me to complete. Real life and all that getting in the way.
